The Golf GTI

25th Anniversary Edition

Model shown is the 25th Anniversary GTI 1.8T.

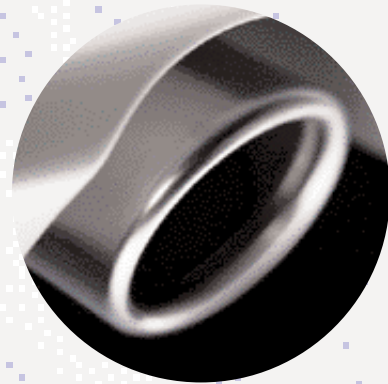

The 1.8 litre turbo engine develops 180 bhp and a maximum torque of 235 Nm from as low as 1,950 to 5,000 rpm.

Have you ever stopped to consider how many cars on the road today have been around for the last quarter of a century? Furthermore, how many have been the European market leader over this same period? The answer is probably 'not many'. And there's a good reason for this – the Volkswagen Golf GTI.

Over the last 25 years the Golf GTI has epitomised everything that Volkswagen has stood for – reliability, superb engineering and outstanding build quality, but with an understated performance capability that warms the heart.

When we decided to celebrate this unique occasion, we wanted something equally special. So, for a limited period only, we are delighted to offer the Golf GTI 25th Anniversary Edition model.

The wide chrome-plated tailpipe adds to its striking appearance. (Not available for the 25th Anniversary GTI 1.9 PD.)

Your 25th Anniversary Edition GTI will be one of only 1,800 uniquely numbered cars.

From the moment you first set eyes on this latest GTI incarnation, you can't help but marvel at its youthful good looks. Could it be the 90 mm diameter chrome-plated tailpipe or 18 inch 'BBS' alloy wheels? Perhaps it's the exclusive front and rear bumpers, lowered sports suspension and widened sills that will set your pulse racing?*

Step inside and you're in for an even bigger birthday treat – 'Recaro' sports seats, Climatronic air conditioning, luxurious carpet mats and woven seat belts. Black leather trim with contrasting red stitching around the steering wheel, gear lever gaiter and handbrake grip, together with the golf ball shaped gear knob, hark back to the original Mk I GTI.

To ensure your celebrations remain lawful, we'd like to advise a little restraint as you head for the open road and unleash its mouth-watering 180 bhp. After all, a 1.8 litre engine boasting twin overhead camshafts, 5 valve technology, turbocharger, intercooler and a slick 6 speed gearbox could go to anybody's head.

You can enjoy such performance with confidence; several safety features such as ESP (which includes EDL and ASR), ABS and front and rear disc brakes are fitted as standard.

Should you prefer a diesel, there's the option of an outstanding 1.9 litre TDI PD that generates 150 bhp.

** Not available for 25th Anniversary GTI 1.9 PD.*

Perforated leather with red stitching creates a stylish interior finish.

Race inspired aluminium pedals add the finishing touch.

A 6 speed transmission provides a fast and smooth gear change.

Climatronic air conditioning provides year-round comfort.
