I am as passionate about Volkswagens as I am photography. I love the way a landscape changes as soon as a classic VW drives into view. The scene becomes more nostalgic. It has more meaning. That long stretch of sand suddenly becomes beautifully punctuated by a ruby red split screen Bus, waiting for its owner to come back from the surf. Don't laugh, but I would say a classic Volkswagen is very much like photography. After all, they are both timeless.

It's what I call my friends who prefer surf to turf!

And this lot spend as much time under their cars as in them.

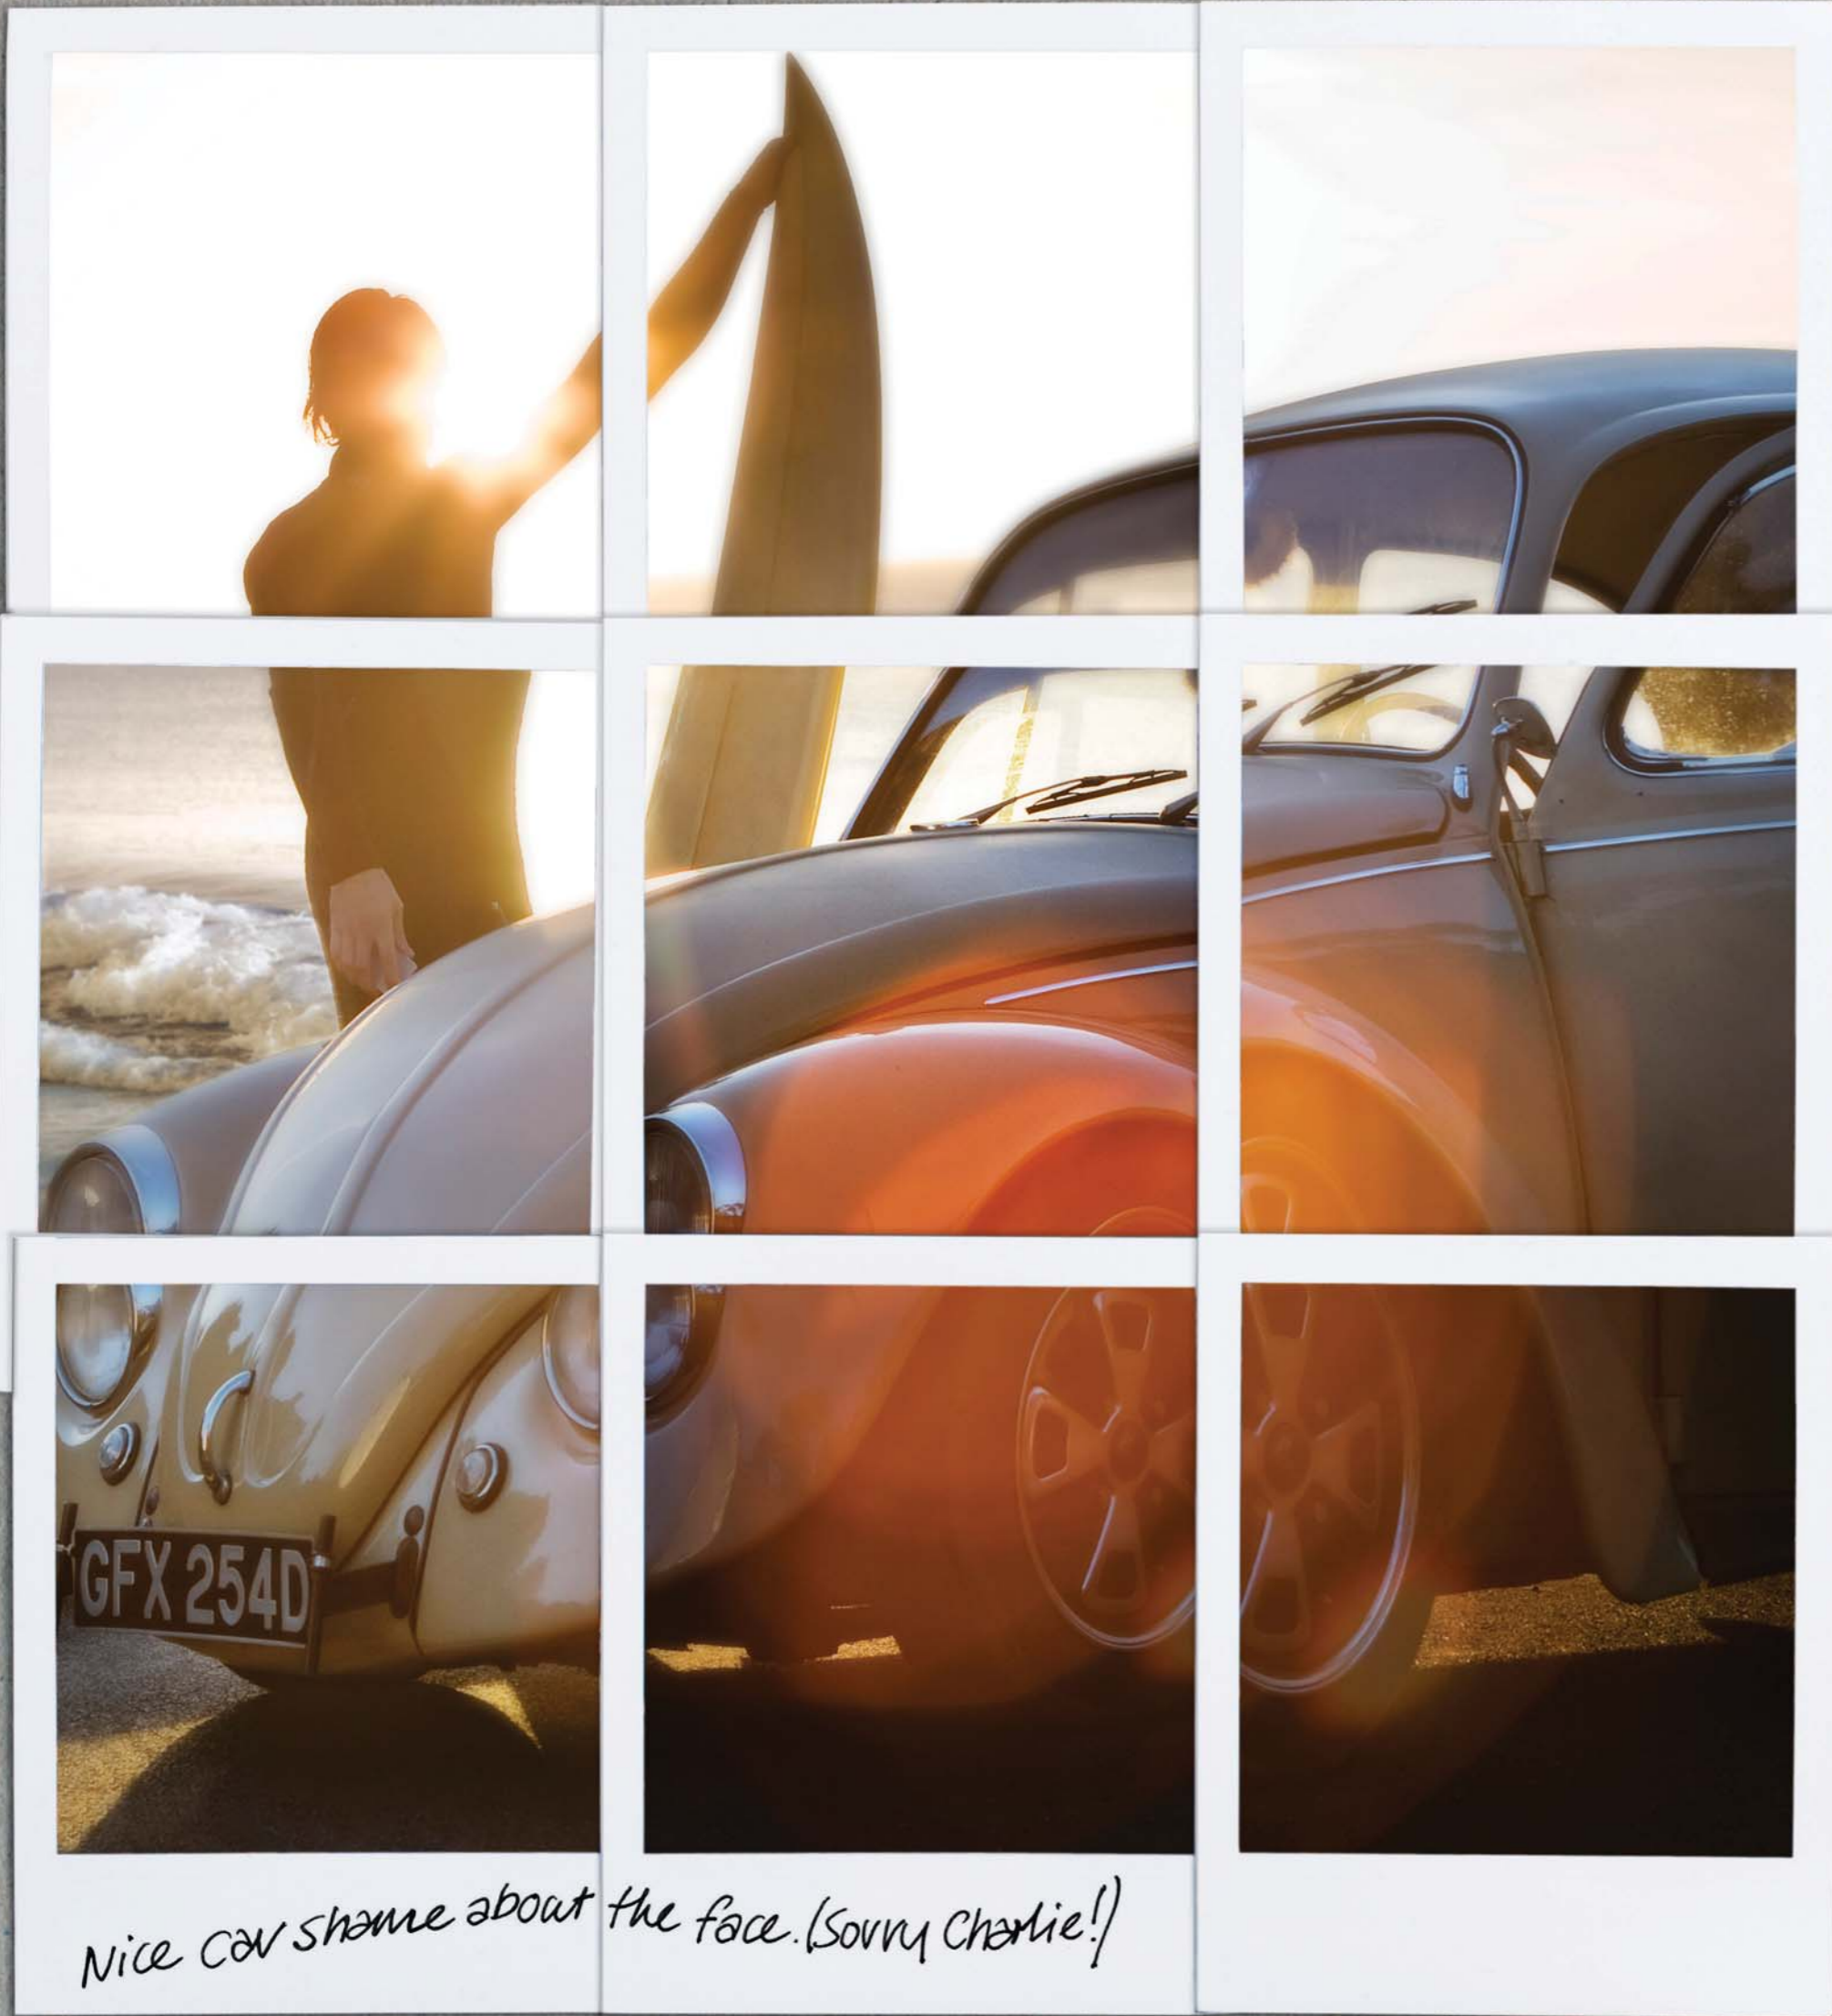

For these guys and gals the end of the week is the beginning of an adventure

As for these guys... they've got more festival passes than I've had hot dinners!

My story.
