In this price list, you can find the Volkswagens available on the Scheme. Listed is the Advanced Payment (AP) amount, this is a one-off payment required at the start of your lease. Alongside this, there is the weekly rental. Some vehicles will cost your whole weekly mobility allowance, shown as total allowance (TA) in the pricing table. Whereas other vehicles won't cost your full allowance and will take the amount shown in the table away from your weekly allowance, leaving the remainder of your allowance to spend as you wish.

Offer open to new or existing customers of OVO Energy who: (1) are UK residents, excluding Northern Ireland, 18+ (2) purchase a brand new fully electric vehicle from any VWG brand dealership between 1st July 2024 and 30th June 2025 (for a full list of eligible EVs see) and (3) activate OVO Energy's 'Charge Anytime'. To activate 'Charge Anytime', you will need a compatible EV charger or electric vehicle. T&Cs apply to OVO Energy's 'Charge Anytime'. New vehicles only. Domestic charging only. Applies to Retail, Motability and Local Business only. Offer subject to availability. Offer valid on orders placed from 1st July 2024 to 30th June 2025. Customer will receive £212.12 credit on their OVO Energy account within 60 days of Charge Anytime sign up. For each year you remain on Charge Anytime on the anniversary of you joining Charge Anytime you will also receive a £21.21 credit equal to 1,000 free miles. This will be paid to you each year for a maximum of 3 years. 10,000 and 1,000 mile calculations based on an average efficiency, weighted in line with brand Electric Vehicle volumes, of 3.3 mile per kWh across the Volkswagen Group model range (for all brands). Since this is an average, the efficiency of individual models may be less, which would mean you receive fewer than the maximum 10,000 free miles. The efficiency figure is also based on standardised test data after the battery had been fully charged (to 100%) and may not reflect real world driving. Actual efficiency differs depending on multiple variables, including your selected vehicle and configuration, accessories fitted (post-registration), variations in weather, driving styles, route conditions, speed, vehicle age, battery age and temperature and vehicle load. The actual number of free miles you receive may be less than the maximum 10,000 miles and will depend on the actual efficiency of your selected EV in the real world. Offer is for an estimated number of free miles calculated on the basis of the costs to the customer when they 'smart charge' using 'Charge Anytime'. Electric vehicles require mains electricity for charging. For the latest information, including official WLTP range and power consumption data for your selected vehicle, please visit www.Volkswagen.co.uk. For full Offer terms and conditions, see [here](#).
